PERMANENT ADDRESS

Kaposvar, Kortonye utca 46.
7400, HUNGARY

Work Experience

Hornet Representative, 2017 -

Hornet - <http://hornet.manchester.ac.uk/>

University of Manchester

Key responsibilities:

- Providing the first line support of wired, wireless, and security issues on university networks.
- Interacting professionally with a diverse group of student residents and staff.
- Precise and professional administration.

Education

MEng, Computer Science, 2017 -

University of Manchester

Manchester

- On track towards first class degree.
- Participating in the university's Manchester Gold mentoring scheme.
- Volunteering member of HackSociety and CSSociety.

Hungarian Matura, 2011 - 2017

Munkacsy Mihaly High School

Kaposvar, Hungary

Most students only take 0 or 1 of the five exam subjects at a higher level. I took three, these being Mathematics, Physics, and English in addition to History and Literature at normal level. Even with the added challenge, my result of an average of 90% across all exams is 24% higher than the national and regional average.

Internet application developer, 2014 - 2015

IEC

Kaposvar, Hungary

Overall grade: 94%

After getting familiar with key concepts of web development on my own, I decided to seek formal education in form of a part time course.

- Attending this course along with my high school studies helped me develop excellent time management skills.

- As part of an independent project, created a responsive web based application using HTML, CSS, SQL, Php, and JavaScript, with the goal of improving users' reasoning skills.
- A piece of code I created while studying here is still used as an example in their classes.

Personal interests

- Participating in programming competitions, notably in Challenge24 where I worked as part of a team in an international setting.
- Solving math and logic problems.
- Health and fitness hobbyist.
