WORK EXPERIENCE

Hornet Representative, September 2017 -

Hornet - <http://hornet.manchester.ac.uk/>

The University of Manchester

Providing the first line support of wired, wireless, and security issues on university networks.

Key responsibilities:

- The ability to interact professionally with a diverse group of student residents and staff.
- Teaching and training others.
- Strong organizational and administrative skills.
- Ability to learn new technologies and keep up with the latest technological advances.

EDUCATION

MEng, Computer Science, September 2017 -

University of Manchester

- Participating in the university's Manchester Gold mentoring scheme.
- Volunteering member of HackSociety and CSSociety

By the end of my first year I am expected to:

- Have a clear understanding of more advanced principles of the **Java programming** language.
- Be able to understand the basics of **assembly language** programs.
- Understand in broad outline the principal challenges of AI and the major research areas.
- Acquire practical skills in analysing distributed applications.
- Acquire **group working and project-management** skills: I will be able to act as a responsible member of a team, communicate with team members, and contribute to the group's self-organisation, planning, and conflict resolution.
- Have contributed to planning and developing a functioning, substantial, web-based information system as a member of a team.
- Have gained experience in **writing technical reports and reflecting** on my learning and professional development.

Hungarian Matura, September 2011 – June 2017

Munkacsy Mihaly High School

Kaposvar, Hungary

Higher level Mathematics: 87%

Higher level Physics: 89%

Higher level English: 98%

Literature: 87%

History: 98%

- Graduated with praise from the chairman of the exam committee and the school principal.
- Helped organise annual Researcher's Night event.
- Held tutoring sessions for fellow students in physics and mathematics.

Internet application developer, November 2014 – July 2015

IEC

Kaposvar, Hungary

Overall grade: 94%

After getting familiar with key concepts of web development on my own, I decided to seek formal education in form of a part time course.

- Attending along with my high school studies greatly improved my time management skills.
- Gained the knowledge of creating responsive web based applications using HTML, CSS, SQL, Php, and JavaScript.
- As part of an independent large-scale project I created a website, which aimed to improve users' reasoning skills.
- A piece of code I created while studying there is still used as an example in their classes.

PERSONAL INTERESTS

- Participating in programming competitions, notably in Challange24 where I worked as part of a team in an international setting.
- Solving math and logic problems.
- Health and fitness hobbyist.
